## Rosa-Alscher Gruppe at MIPIM in Cannes

**Internationally the Rosa-Alscher Gruppe is well-established. Therefore the participation at the international real estate fair in Cannes is not only mandatory for Rosa-Alscher but also one of the most important for their business. In Cannes Rosa-Alscher is going to present their latest projects, e.g Technologie Campus Munich (TCM).**

The so called MIPIM is one of the most important specialized fair for real estate industry. The most important and influential players swarm to Cannes for this event. 4,800 investors, 3.600 CEOs and directors, 2,450 exhibitors and more than 20,000 visitors are going to join this fabulous event.

As a partner of Munich's real estate industry the Rosa-Alscher Gruppe presents its projects in hall Riviera 7, number R7.G16 next to other partners. The common stand is organised by the administration of the Bavarian capital. This representation aims to constitute the best-of investment market in Munich to the other exhibitors and visitors as well as to discuss the future of Munich's real estate business.

Besides a lot of reference projects Rosa-Alscher Gruppe introduces the newly developed Domagkpark and TCM in Cannes. Additionally Dr. Alexander Rosa-Alscher presents the long since successful cooperation with the well-established architect Vasco Vieira.

The MIPIM takes place from March 15 until March 18 2016 in the palace of the festival area in Cannes, France. For further information visit [www.munich-mipim.de](http://www.munich-mipim.de).

**The Rosa-Alscher Group - Münchener Grundbesitz Verwaltungs GmbH.**

For many decades, the Rosa-Alscher Group has been shaping the Munich cityscape with its projects. The group includes the SAM architects office and SAM Plantech GmbH, which is responsible for project implementation. Distinctive architecture and the highest standards of construction are of paramount importance for the group's founder. The Rosa-Alscher Group can boast a number of prominent reference projects, including the new Munich-Riem trade exhibition centre, the Arnulfpark, the Ackermannbogen and the Parkstadt Schwabing. One of the more recent projects is the extension building at the University of Munich in Dachauer Straße.
